

Lets Build a Village!

FOR YOUTH DEVELOPMENT®
FOR HEALTHY LIVING
FOR SOCIAL RESPONSIBILITY

Here is another fun activity that your family can do while your children are not in school. Go out in your backyard and collect all the broken branches that fell during the winter, find some small rocks, and some leaves. Now with your creativity and a little bit of engineering you can create your own Fairy or Troll houses. Share photos, have fun, and remember to follow our local health department protocol.
